

**BISLEY PROTECTIVE WEAR
CATALOGUE 2010**

PROTECT YOUR GREATEST ASSET ... YOUR WORKERS

As a major manufacturer of work wear garments, Bisley Workwear is committed to the continual development of clothing that delivers OH & S innovation.

In recognition of the relevant safety requirements for workers in general and hazardous environments, Bisley has developed a range of protective fabrics and treatments that ensure compliance and risk reduction.

Please contact our sales team about our R & D on combining the enclosed fabrics and treatments, including waterproof possibilities to meet your garment requirements.

Bisley Flame Resistant Fabrics

Bisley Flame Resistant garments are made from fabrics that comply with worldwide standards, to protect the wearer in risk environments. The fabric range fulfils measures such as durability, comfort, protection, weight and price.

Industries

Oil, Gas, Petrochemical & Chemical, Electrical, Molten Metal, Welding, Wildland Fire fighting etc.

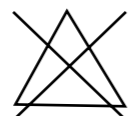

- ✓ Comply with Australian & New Zealand Standards:
 - AS2919, AS/NZS4399 & 1020
 - Hi Visibility AS/NZS4602 & 1906 (Class D, D/N & N)
- ✓ Comply with European Standards:
 - EN340, 1149-3 & 13034
 - EN/ISO11612 & 11611
 - REACH Certified
- ✓ Comply with US Standards:
 - NFPA70E, 2112, 1977
 - OSHA 1910.269
- ✓ Comply with International Standards:
 - IEC/ISO61482-2 (Class 1)
 - ASTM F1506, F1002, F1959/F 1959M-w06ae1
- ✓ 3M 8935 - Branded flame resistant taping
- ✓ Comply with OEKO-TEX 100:
 - Class II (Safe to wear against skin)
- ✓ Comply with HRC & ATPV Ratings:
 - HRC 0, 1 & 2
 - ATPV Range 6 - 9
- ✓ Guaranteed flame resistant for the life of the garment
- ✓ Low Formaldehyde levels
- ✓ Protection against arc flash, flash fire, molten metal, radiant heat, contact heat, and limited chemical splash
- ✓ Cotton blend fabrics allow a range of fabric styles, colour options and weights, where heat stress is an issue

*Standard compliance varies by garment style

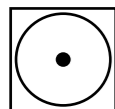

Wash and Care Instructions

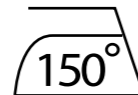

Maximum washing temperature 60°C
Alkaline based detergent recommended

Do not soak, bleach or wring

Tumble dry on lower temperature
Do not dry clean

Iron at maximum sole plate temperature of 150°C

Bisley Anti Static Fabrics

- Bisley Anti Static Fabrics provide a solution for a broad range of risk environments when exposed to electrostatic charges.
- Woven into the fabric of the garment, the anti static properties ensure a high level of protection, durability and comfort.
- Surface resistivity significantly reduces risk in explosive environments.

✓ Eliminate the build up of static electricity

✓ Can be incorporated into wet weather or dry weather garments

✓ Contain Negastatic thread which actively dissipates electrical charge before accumulation

✓ Encapsulated into the yarn to avoid the abrasive process of wash, wear and tear

✓ Suitable for petrochemical, electrical and high risk flammable environments

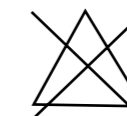

✓ Comply with Australian/New Zealand Standard:
- AS/NZS 1020:1995

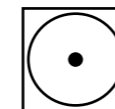

Wash and Care Instructions

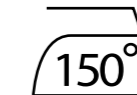

Maximum washing temperature 60°C
Alkaline based detergent recommended

Do not soak, bleach or wring

Tumble dry on lower temperature
Do not dry clean

Iron at maximum sole plate temperature of 150°C

Bisley Insect Protection Fabrics

Based on scientific estimates, at present one person out of six has been infected with insect transmitted diseases. According to the information of US health control centres, from the 17th to the early 20th century, more cases of illness and death were caused by these than all other causes together.

- ✓ Comply with NATO Standard TL8305
 - Permethrin content measurement
 - Insect knock down rates
- ✓ Tested using World Health Organisation (WHO) recommendations
- ✓ Comply with Cytotoxicity testing which measures the potential for skin irritation
 - DIN EN ISO 10993-1: 2003-12
 - DIN EN ISO 10993-5: 1999-11
 - DIN EN ISO 10993-12: 2005-03
- ✓ Comply with OEKO-TEX 100:
 - Class I-IV (Harmless to human health)
- ✓ Non-toxic to humans, safe and odourless
- ✓ Superior protection against insect bites, including mosquitoes, ticks, lice and bed bugs.
- ✓ Protection for up to 100 washes
- ✓ 100% knock down rates after contact up to approximately 72 minutes
- ✓ No repetition of treatment necessary
- ✓ We recommend that exposed skin not covered by Bisley Insect Protective Garments should be protected by an approved insect repellent

Insects and their transmittable diseases

Mosquitoes transmit malaria, dengue fever or yellow fever

Ticks transmit lyme borreliosis

Fleas host encephalitis germs as well as agents of other diseases

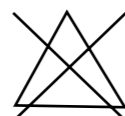

Tsetse flies transmit sleeping sickness
Sand flies can transmit leishmaniasis

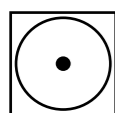

Wash and Care Instructions

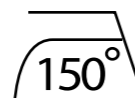

Maximum washing temperature 60°C
Alkaline based detergent recommended

Do not soak, bleach or wring

Tumble dry on lower temperature
Do not dry clean

Iron at maximum sole plate temperature of 150°C

*** Discontinue use as a repellent garment after 100 washes.**

Bisley Anti Bacterial Fabrics

NO ODOUR

NO BACTERIA

NO FUNGI

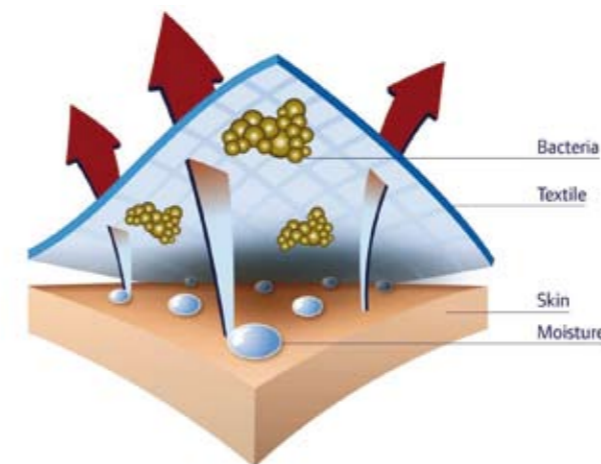

NO DUST MITES

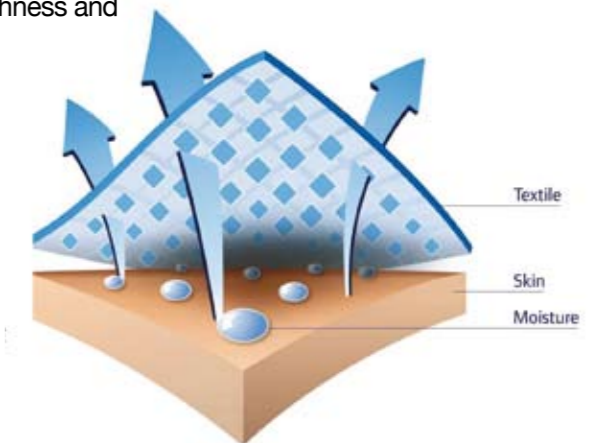

- ✓ Prevent development of unpleasant odours caused by bacteria
- ✓ Work like a built-in deodorant
- ✓ Keep textiles fresh and comfortable
- ✓ Dermatologically tested (DIN ISO 10993-5)
- ✓ Excellent washing resistance, especially on synthetic fibres 20 - 50 washing cycles according to EN ISO 6330 (2A) 60°C
- ✓ Reliable and durable bacteriostatic effect against a broad range of bacteria including MRSA (Methicillin Resisterer Staphylococcus Aureus)
- ✓ Safe for man and environment
- ✓ Comply with OEKO-TEX 100:
 - Class I-IV (Harmless to human health)
- ✓ EPA registered

Fabric Hygiene Function

Fabric without treatment

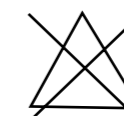

Fabric with treatment ensures freshness and well being.

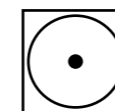

Wash and Care Instructions

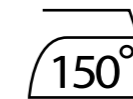

Maximum washing temperature 60°C
Alkaline based detergent recommended

Do not soak, bleach or wring

Tumble dry on lower temperature
Do not dry clean

Iron at maximum sole plate temperature of 150°C

SYMBOL INFORMATION

HI VIS - MATERIAL AS/NZS 1906.4

The Australian/New Zealand Standards specifies the photometric, colorimetric and physical property requirements for high visibility materials for outdoor daytime use, reflective materials for night use or a combination of both. Bisley Workwear only uses materials that comply with the Australian Standards Industrial Clothing - AS 2919-1987.

HI VIS - SAFETY AS/NZS 4602:1999

Bisley Safetywear garments are tested to ensure they comply with the Australian/New Zealand Standards for High Visibility. The Standard covers the visual requirements for high visibility safety garments worn in situations where they may be exposed to hazards, from moving traffic or within a shared work place.

3M SCOTCHLITE REFLECTIVE MATERIAL

Scotchlite Reflective Silver Fabric is composed of wide angle, exposed retroreflective lenses bonded to a durable cloth backing. Please note that the Bisley items that have reflective tape in this catalogue use the 3M 8910 quality, unless otherwise specified. 3M Tape used meets Australian/New Zealand Standards. Other 3M tapes are available upon requests.

SUN PROTECTION - AS/NZS 4399:1966

Bisley Workwear is tested to Australian/New Zealand Standards for Sun Protective clothing AS/NZS 4399:1966 and can be identified by our special sun protection logo.

INDUSTRIAL CLOTHING - AS 2919-1987

The Australian Standards specifies the design and the performance requirements for industrial Clothing intended primarily for protecting the wearers clothes from dirt, soilage, wear and tear. It does not apply to garments designed for protection from specific hazards such as fire and chemicals.

ANTI STATIC - AS/NZS1020:1995

The Australian/New Zealand standards sets our recommendations for the control of Static Electricity which are generated incidentally by processes or activities which may prove hazardous in certain environments. Bisley Workwear identifies garments that comply with the anti static requirements.

INDURA® ULTRA SOFT®

Bisley Indura® Ultra Soft® garments are guaranteed FR for the life of the garment. Constructed of 88% Cotton and 12% High Tenacity Nylon, a small amount of high tenacity nylon is focused in the face of the fabric to provide enhanced abrasion resistance for an extended garment wear life.

Holding the stringent OEKE-TEX certification, Bisley Indura® Ultra Soft® garments provide proven performance in both electric arc flash and flash fire. The softer feel enhances comfort characteristics to provide an industry leading balance of Protection, Comfort and Value unsurpassed in the market place today.

FLAME RESISTANT

Bisley Flame Resistant garments are tested to ensure they comply with the Australian/New Zealand as well as world wide standards. Bisley Flame Resistant fabric range fulfils measures such as durability, comfort, protection, weight and price. For further information refer to page 4 in the catalogue.

ATPV

ATPV stands for Arc Thermal Protective Value and refers to the minimum incident energy (in calories per cubic centimetre) that protective equipment can be exposed to and prevent to onset of a second-degree burn. Ratings are based upon the total weight of the fabric. Appropriate clothing ranges from untreated cotton, wool, rayon, or silk materials with a fabric weight of at least 4.5 ounces per square yard to flame retardant (treated) clothing worn in layers.

HRC

HRC stands for Hazard Risk Category. The level is determined by the minimum amount of calories per square centimetre (ATPV or Cal/cm²) a treated garment must pass through with a 50% probability of a 2nd or 3rd degree burn occurring, thus the protective level of the treated clothing. The higher the ATPV, the higher the HRC level attained, the greater the protection.

INSECT PROTECTION

Bisley Insect Protection garments are tested to ensure they comply with the Australian/New Zealand as well as world wide standards. Bisley Insect Protection garments are superior protection against Insects and their transmittable diseases, non-toxic to human, safe and odourless. For further information refer to page 6 in the catalogue.

The characteristics of the Australian/New Zealand Standards outlined in this information are only intended to be used as a guide. For a full understanding of the requirements, please refer to the relevant Australian/New Zealand Standards manual found at www.standards.com.au or www.standards.co.nz
